

Acoustical Wall Panels by Unger Technologies are the solution for areas that require noise reduction and are available in a variety of models for various applications.

The Wall Panel is manufactured to the highest standards and is specifically designed as a multi-purpose absorber panel that offers an economical way to resolve reverberant noise problems. Application for the panels includes schools, universities, offices, airports, churches, restaurants and any area where excess reverberation is a problem.

The Fabric Wrapped Acoustic Wall Panel provides the ultimate in performance with excellent NRC ratings. Available in four standard thicknesses: 1/2", 1", 1 1/2" and 2" with custom thickness available. Panels are constructed with a 6-7# PCF rigid fiberglass absorber core. The edges are chemically hardened and are available in 4 edge profiles. Panels are available in standard or custom-sizes (up to a maximum of 5' x 10') with custom, designer or C.O.M fabric available.

Installation of the panels is simplistic using mechanical clips, adhesive or hook & loop. Consult with factory on the best-suited mounting for your specific application.

Finishes

- Guilford of Maine FR701 Style 2100 is standard
- Custom or Designer fabric also available

Mounting Options

- 2 part Mechanical Clip
- Clip & Velcro
- Adhesive
- Impaling Clip

Edge Detail

- Square, Mitre, Bevel, or Radius

Acoustical NRC Rating

- 1/2"..... .50-.60
- 1"..... .80-.90
- 1 1/2"90-1.00
- 2"..... 1.05-1.15

Fire Rating

- All components shall have a Class A fire rating per ASTM E-84
